DETAILED ACTION

1. This application has been reviewed. Original claims 1-26 are pending. The rejections cited are as stated below:

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Rhoads US Patent Publication No. 2004/0057581 A1.

Claims 1-26, Rhoads discloses a method and corresponding system for processing a point-of-sale transaction at a merchant terminal, comprising the steps scanning a personal identification document corresponding to a customer requesting a financial service at a merchant terminal; generating a scanned image of the personal identification document; identifying character data in the scanned image; and comparing the character data to a document template corresponding to the personal identification document to generate customer data as claimed in claims 1-26 (abstract, figs. 2, 3 and related text, and Para 388-404, 643-673).
